

PARTNUMBER GUIDE

Pluto SC 3AB 200GB-CD

SSD Series

Mars: Military grade
Jupiter: Industrial grade
Pluto: Enterprise grade
Venus: Consumer grade
Ceres : mSATA SSD
IObuster : PCIe SSD

SSD interface

S: SATA Interface
I: IDE/PATA Interface
P: PCI-e Interface
Z: ZIF interface
M:MicroSATA interface

Main Feature sets

P: for profession applications need utmost reliable and performance.
C: for Cloud computing.
L: for high write demand applications.
V: Value version SSDs for high write demand applications.
W: for intermediate write duty applications.
X: for entry level applications need mainly read operations.

Reserved

Reserved for future uses.

SSD Capacity

As the number and unit shows.

Appendix Feature sets

E: Economical Version
L: Lifespan Extended Version

Generations

1:First Generation of Products
2:Second Generation of products generally with SATA 2 interface, PCI-e Gen 2 interface, ZIF II, etc.
3: Third Generation.
Generally with SATA 3 interface.
